## PERSONAL PROJECTS

### OrangeHRM - HRM Portal (09/2023 - Present)

- Designed & executed comprehensive test scenarios and test cases for website functionality & ensured data integrity for employee details.
- Verified login page authentication for user access to maintain security.
- With strong problem solving skills resolved issues in a timely and high-quality manner.
- Validated file attachment and storage functionality.
- Identified more than 10 bugs to resolve software quality problems.
- Test planned, created scenarios and test cases to ensure smooth testing.
- Found major bug where employee was able to edit employee id. Practically in any company employee id is unique for each employee and assigned by HR/Employer. So employee should not be able to edit restricted tabs such as employee id

## ACHIEVEMENTS

### Accenture Success Catalyst Award (FY'23 - Q2)

Awarded for collaborating with clients, communities and ecosystems to deliver exceptional value.

### Spot Recognition Award

Recognized by domain delivery manager and client for detecting major and critical bug which was causing unnecessary billing to customers
